### Installation

1. Must be installed by a licensed electrician.
2. Cut-out a hole of 92mm diameter in the ceiling.
3. Install downlight by folding spring clips up and pushing it into the cut-out. Connect the 2 pin plug to 240V AC socket.
4. Clean with a damp cloth and dry with a lint free cloth or kitchen towel. Ensure power is switched "OFF" before cleaning.
